Energy Bill of Rights

1. We all have the right to affordable energy to meet our basic needs.

2. We all have the right to energy that does not harm us, the environment, or the climate.

3. We all have the right to energy that does not threaten health, safety, water, air or the local environment of a community.

4. We all have the right to a fair energy pricing system that does not penalise those who use less.

5. We all have the right not to be cut off from our energy supply.

6. We all have the right not to be forced to have a prepayment meter.

7. We all have the right to energy that is owned by us and run in our interests.

8. We all have the right to properly insulated, well repaired housing that does not waste energy.
