

Resolution Date: 10/02/2015

Resolution Title: Stop Aylesbury Demolition Now Campaign

This trade union branch agrees the following:

"We support the demand that Southwark Council and Ed Miliband, leader of the Labour Party, RESPECT the democratic overwhelming ballot (2001) of Aylesbury tenants and leaseholders to keep the estate wholly council owned and controlled; AND call-on Ed Miliband to tell Southwark Labour council to IMMEDIATELY STOP the anti-democratic demolition of the Aylesbury Estate and to work with tenants and leaseholders in the estate and area on alternative plans including refurbishment of existing blocks as council housing.

We believe if the Council and Ed Milliband does not undo the wrong perpetuated by the last Labour government which sent his brother David to tell the council to trash the democratic ballot and proceed to demolition, estate disposal and social cleansing then he cannot expect ordinary people to trust him or vote Labour.

We know that **refurbishment** instead of demolition is totally possible on Aylesbury with modern technology and has been successfully carried out elsewhere."

BUILD SUPPORT! Take the resolution to your organization!

Here is the first – from Alvey Estate (on East St immediately adjacent to Aylesbury).
"ALVEY TRA welcomes & supports the Aylesbury Estate occupation action to stop demolition of the estate and social cleansing of the area and London and FULLY backs the Stop-Aylesbury-Demolition-Now-Campaign resolution and demands on the Council and Ed Milliband and will join any demonstration or deputation to him to this end."
