

Do you work in the voluntary or not for profit sector?

Are you a member of Unite the Union working in the London or Eastern region?

Come and join other members for an evening to:-

- discuss the role of the voluntary sector in an age of austerity
- meet other people in the sector and learn about their campaigns
- find out more about how the union works and how you can get involved
- have a drink and light refreshments and build networks across the sector.

We are delighted to have speakers from the Greece Solidarity campaign, as well as from the Unite Community membership. We have also invited Jeremy Corbyn MP and Sadiq Khan MP to give thoughts about what is happening nationally and regionally. There will be time for discussion and networking, and for shaping the future work of the Union around the not for profit sector.

Let us know if you would like to bring information about a campaign you are involved in.

The meeting is being put on by the Region's Sectoral Committee and the lead officer for membership in not for profit organisations.
