Join us in London 16 April – March for a fairer and more equal Britain

Help make this march big

We live in one of the richest countries in the world, yet too many people are struggling to get by as wages fall and housing costs soar because of the government's austerity agenda. Public services are being slashed, while the super-rich are getting richer. It doesn't have to be this way.

Unite believes that the People's Assembly's four demands will improve the lives of our members and their families.

Austerity is a choice, not a necessity. Join with the People's Assembly to demand:

HEALTH

- For a fully-funded and publicly owned NHS-end privatisation
- Invest in health workers – end the staffing crisis
- No cuts or closures

HOMES

- Hands off social housing
- Secure homes for all
- Control rents

JOBS

- Scrap the Trade Union Reform Bill
- Stop insecure contracts
- End the pay freeze, a real living wage for all

EDUCATION

- Scrap tuition fees
- Invest in our futures – stop cuts to education
- End the marketisation of education
