

Resolution Date: 14th March 2017

Resolution Title: Action to Defeat the Trade Union Act

This branch notes that the new trade union act is now in force further shifting the workplace balance to employers.

We welcome the steps Unite has taken to continue to defend workers and to protect the union.

We note that the TUC conference agreed a resolution committing the general council to organise a conference to discuss a fight back against the act.

We call on our Executive Council to press the TUC to organise the conference as a top priority. If this hasn't been done by the TUC within the next quarter, Unite should have a proposal by September for a conference with all other unions prepared to participate.

The motion will be passed on to the Regional Committee.
