**Resolution Title: In support of an actively antiracist Labour Party**

---

This branch accepts the findings from Labour Black Socialists that assert the extent by which anti Black discrimination and Islamophobia are now felt to be widespread throughout the Labour Party, at every level of the Party and in every part of the country.

We accept their assertion that the leadership has failed in their duty to tackle anti Black racism and Islamophobia, or to develop systems of natural justice within the disciplinary process to tackle anti Black racism and Islamophobia.

We support taking action to regain public confidence in our party and build its reputation as the truly antiracist party of the UK.

This must include establishing Labour as a party that fights against austerity and opposes the cuts which create an environment in which the far right and racist ideas can gain a foothold.

**We thereby resolve to:**

Henceforward join our Black comrades in Active campaigning support for Labour Party candidates being dependent upon their proven commitment to tackle anti-Black racism, Islamophobia and other forms of discrimination routinely faced by Black, Asian, and Ethnic communities heritage members, as well consistently opposing austerity.

Boycott the campaigns of Labour candidates who are felt to harbour discriminatory views or who have acted in a discriminatory manner towards Black, Asian, Muslim, and other Ethnic communities, or who support cuts.

This extends to withholding union support from such candidates. This cannot mean that we are left without candidates in areas where Labour fields unacceptable figures and Unite should reserve the right to support candidates that genuinely campaign against racism and austerity and support union policy.

**In conclusion**

We resolve to promote the politics of working class unity and socialism. We support equality for all irrespective of difference in class, caste, gender, ethnicity, religion, culture, or national origin.
