Energy Bill of Rights

- We all have the right to affordable energy to meet our basic needs.
- We all have the right to energy that does not harm us, the environment, or the climate.
- We all have the right to energy that does not threaten health, safety, water, air or the local environment of a community.
- We all have the right to a fair energy pricing system that does not penalise those who use less.
- We all have the right not to be cut off from our energy supply.
- We all have the right not to be forced to have a prepayment meter.
- We all have the right to energy that is owned by us and run in our interests.
- We all have the right to properly insulated, well repaired housing that does not waste energy.
